

Rinnai

EHP32 Electric Heat Pump with Stainless Steel Cylinder

Introducing the new Rinnai Electric Heat Pump with Stainless Steel Cylinder built to last!

Heat pumps utilise a compressor to extract heat from the surrounding air and transfer it to water in the Stainless Steel storage cylinder. This is a highly efficient method of heating hot water and therefore the Rinnai Electric Heat Pump is awarded both RECs rebates and Federal Government rebates in many installations.

The benefits at a glance:

- Highest quality 265 litre Stainless Steel storage cylinder with a 10 year warranty
- Suits large families - designed to deliver high volume of useable hot water
- Uses around 60% less electricity of a standard electric storage water heater
- Therefore saves around 60% in running costs (against full peak electricity tariff) and around 60% less CO₂ emissions
- Perfectly suited to the replacement of existing electric hot water systems (rebates apply)
- Flexible installation options with ability to locate cylinder indoors or outdoors

Experience Our Innovation

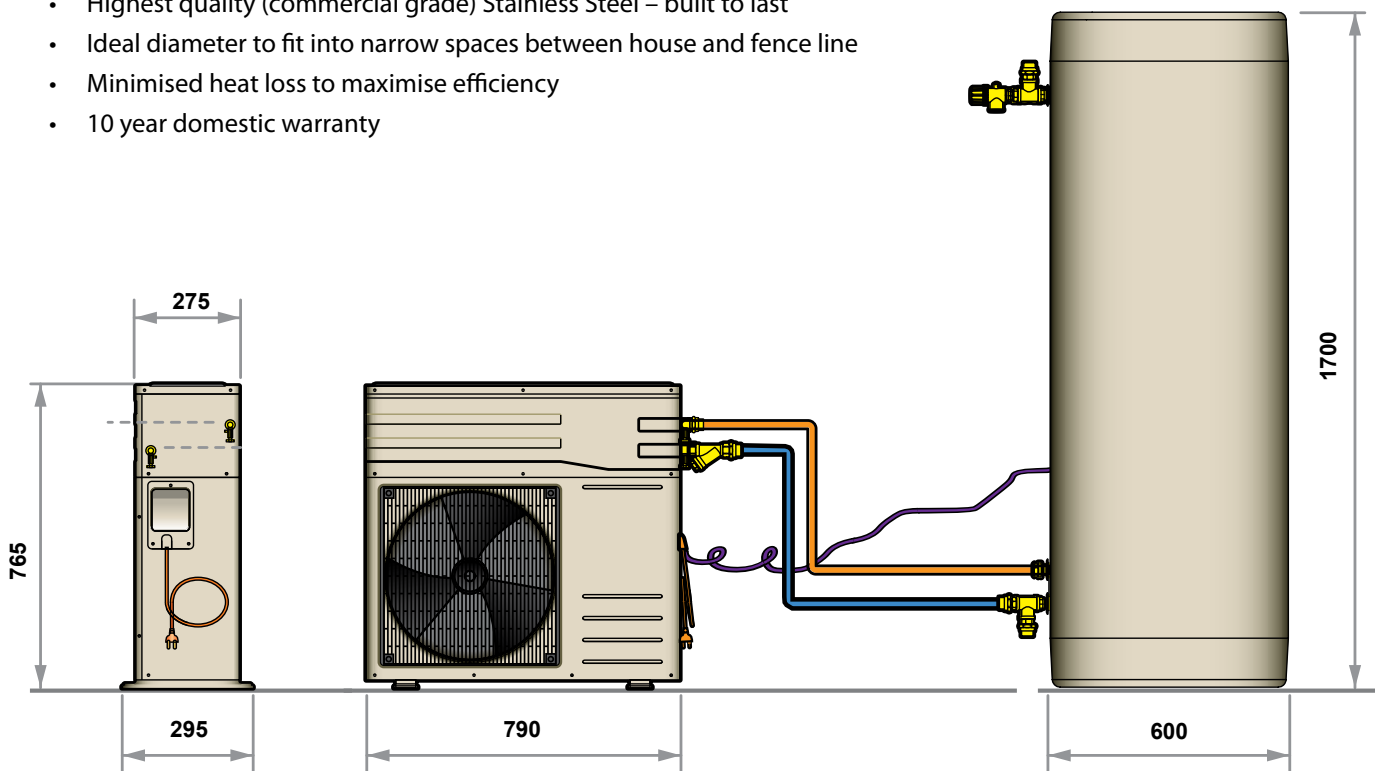

The Rinnai EHP32 Heat Pump is supplied in two separate modules: the Compressor and the Storage Cylinder. This allows for simple on-site handling and installation up to 4 metres apart.

Rinnai EHP32 Compressor Unit

- High quality compact compressor, heat exchanger and control system
- Low noise fan blade profile design, located at low level
- Simply plugs into a power point

Rinnai EHP32 Storage Cylinder

- Highest quality (commercial grade) Stainless Steel – built to last
- Ideal diameter to fit into narrow spaces between house and fence line
- Minimised heat loss to maximise efficiency
- 10 year domestic warranty

Claiming RECs and Rebates

The EHP32 Heat Pump complete system is to be listed with the Office of the Renewable Energy Regulator (ORER) with the following code: EHP32-HPST265. Note: Substitute cylinders cannot be used.

| Warranty | | Storage Cylinder | Heat Pump Module | |
|----------------|--------|------------------|------------------|----------------------|
| | | | Compressor | All Other Components |
| Domestic Use | Parts | 10 Years | 2Years | 1Year |
| | Labour | 3 Years | 1 Year | 1 Year |
| Commercial Use | Parts | 5 Years | 1Year | 1 Year |
| | Labour | 1 Year | 1 Year | 1 Year |

Please note: For full definitions of Domestic use, along with the full conditions and exclusions, please refer to the Operation & Installation Manual (available on request). Dimensions are subject to production tolerances and may vary slightly from those given. Rinnai Australia Pty Ltd reserves the right to make modifications and change specifications without notice.
